KINGSWOOD (LONDON) LTD

Our project in Greatstone

The project in Greatstone is approaching completion, with the final touches now underway. With all main tasks finished, we're concentrating on perfecting the last details to ensure everything meets the highest standards. The project is on track for a successful handover soon!

Air source heat pump

We're thrilled that our client has embraced sustainable energy by installing an air source heat pump. It's a great step towards eco-friendly living, boosting energy efficiency and cutting utility costs. We're proud to support this forward-thinking choice for sustainable heating and cooling.

Construction

Maintenance

Surveys

Our drone surveys quickly spot roof issues like leaks, damage, and blocked gutters. With high-resolution images, we can find problems that might be missed during regular inspections. Once we identify the issues, our experienced team is ready to repair any issues

HOME MAINTENANCE

Our proofing and home maintenance service is known for its quality and reliability in the UK. We protect homes from pests and ensure high maintenance standards, using the latest techniques for sealing entry points, conducting inspections, and performing repairs. We're committed to creating safe and comfortable environments for families nationwide.

Contact us, and we'll get back to you spookily quickly!
